Subject: Feature Submarine Movie Documentary as seen in theaters in 2016 now on DVD

Reply-To: tony@tonyrollo.com

Mr O'Neill -

I understand you served in the US Submarine Force aboard the USS Sand Lance.

I personally wanted to invite you to visit www.SubmarineDocumentary.com

"Submariners: The Men Of The Silent Service" is a feature length documentary and has been called the best submarine documentary ever seen by submarine veterans. It was years in the making and is meant to be more about the heart and spirit of those who worked so very hard to become a member of the US Submarine Force.

Intended to entertain, inform and promote the Submarine Service to the general public, it has been a genuine honor to be embraced by submarine veterans. The movie was designed to display the dedication, strength as well as the humor all submariners share.

One of the cast of the movie was a career submariner on fast attack submarines like the USS Sand Lance. He was in fire control and did a great job in the movie!

I had a close relative that served on the USS Nautilus SSN-571 on the historic mission across the North Pole. My mother was among those who received one of the letters sent by the crew members that were postmarked as they passed under the ice at the pole. It sparked my imagination and the movie was something I always wanted to produce in the honor of all submariners.

Your support would be greatly appreciated. Please pass on this invitation and feel free to post the web site location of www.SubmarineDocumentary.com anywhere you desire.

Thanks so much for your service.
